

Project Santiago

The name "Project Santiago" is named after the Camino de Santiago, a famous pilgrimage across Spain which also inspired the name of our organisation. We aim to provide clarity through purpose for students as they go through their leadership journey.

We believe that leadership is something that is caught not taught. We have tailored a program that provides opportunities for your students to challenge themselves to grow as leaders while also making a tangible difference in their community and school.

Package 2: Trail

The Trail package is for schools who want to start their student leadership program with a bang and have some extra training for teachers. Our team will help kick start your program and then we'll check in with you again halfway through the year at the Leadership Summit. For more ongoing support and engagement, check out [Project Santiago Package 3: "Full Journey"](#)

Pricing

\$3999 is the price for a max of 20 students. See the attached price list for the workshop prices for larger groups.

Inclusions

Student resource booklet

We design a booklet for you to print for each of your student leaders. Included is key information from the training as well as space for them to take notes.

Free Online Community for teachers

All teachers who work with student leaders are welcome to join our free Facebook community where we share resources, host discussions and more!

Scan the QR code to join:

1 day training for student leadership team

Hands on training focused on student action, teamwork, communication, organisation, self-reflection and design thinking. Our team will work together with you to tailor the content to your needs.

Professional development for teachers

Interactive training for teachers focusing on how to run a successful student leadership program. We will specifically focus on student formation and support, student voice, design thinking and evaluation.

Free attendance at the Leadership Summit

Schools participating in Project Santiago Package 2: "Trail", can send up to 20 students to our student Leadership Summit event for free. This event is open to all schools and is a great chance for students to get inspired and network with like-minded individuals.

"They were accommodating and flexible on the day as locations and resources changed last minute, their ability to be adaptable to the circumstances made the day that much less stressful!"

Testimonials

"The team at Yellow Arrow Leadership were a joy to collaborate with. Having to plan a full day's content with about 100 of my student leaders, they were able to tailor a program around my desired outcomes and goals.

They were accommodating and flexible on the day as locations and resources changed last minute, their ability to be adaptable to the circumstances made the day that much less stressful! The students all really enjoyed their sessions and took a lot out of the day.

Specifically they liked that they were able to leave with a set of tangible and practical skills, skills which I have seen them use throughout their leadership roles this year. Felicity and Michael have created an amazing leadership training platform for students and I am very excited about being to work with them again in the near future."
